Dr. Creflo Dollar shares his financial knowledge in *The Holy Spirit, Your Financial Advisor: God's Plan for Debt-Free Money Management*. His guide for financial understanding through the Holy Spirit steers the reader through the thought processes of daily spending choices and long-term financial planning. Dr. Dollar shows how spiritually something so mundane and often frustrating can be accomplished. Somehow he manages to change the reader's mentality from living paycheck to paycheck and turns it into feasible goals. Not only that, but once the reader understands the advice, it will be clear when to invest and when to reap the profits (no matter how big or small). With this way of living, success is not a far-fetched dream! A useful tool is found at the end of each chapter which allows the reader to personalize the message to accommodate their own situation. A win-win!

In these days of financial troubles, people being jobless, some losing their homes, this is a wonderful book to share. What could possibly be better than getting your life on track both figuratively and spiritually?! I love the way it seems like Dr. Creflo Dollar is talking directly to the reader. It is like one of those paintings where the eyes follow you around the room. *The Holy Spirit, Your Financial Advisor: God's Plan for Debt-Free Money Management* is great for those who have been balancing their budgets for decades, young adults heading to college, and even high school teenagers who are learning how to survive on their own.
