## Book Review

**Reviewed by Carol Thompson for Readers' Favorite**

Miss Bristol Rents a Room by Tom Hoffman is an inventive and charming historical fantasy that weaves time travel, memory, and identity into a delightful narrative set against the backdrop of modern-day Brooklyn. Known for his imaginative storytelling in series like *The Translucent Boy* and *Orville Mouse*, Hoffman offers a fresh standalone tale that blends the elegance of the past with the curiosity and chaos of the present. The story begins when a young woman collapses on a Brooklyn sidewalk in 2025, dazed and dressed in Gilded Age fashion. With no memory of who she is or how she arrived in the future, she begins a journey that's part mystery, part adventure, and entirely captivating. Her world shifts again when she discovers a photograph from 1910 showing her alongside two young men at Teotihuacan's Temple of the Feathered Serpent. The image unlocks a flood of memories, and with it, the threads of her astonishing past.

Miss Bristol emerges as a wonderfully layered protagonist, sharp, resourceful, and courageous, whether navigating the etiquette of a bygone era or learning to eat pizza like a New Yorker. The contrast between her 19th-century upbringing and 21st-century surroundings provides both humor and poignancy. Tom Hoffman balances these elements with skill, offering readers moments of quiet introspection alongside bursts of action and discovery. Hoffman is a master storyteller who will grab you from the first sentence and keep you reading until the last word. He knocks it out of the park, or rather centuries, with *Miss Bristol Rents a Room*. It's a whimsical yet heartfelt tale that bridges centuries with ease and grace, celebrating the courage to explore and the joy of remembering who you truly are. If you haven't read books by Tom Hoffman, you are truly missing out.
