Music promoter for Impact Music, Kelly, knew her job was on the line. Checkered Past was her assignment. The hard rock, heavy metal band was depending on her to make them stand out in the crowd of bands. Her fantasies revolved around sexy men living on the wild side of life. Her marriage is loveless and leaves her wanting more. Courageously, Kelly makes the decision to bring changes in her life.

I was prepared to not like this story. I do not like hard rock and heavy metal music. However, once I got into this book, I was hooked. Kelly's decision to escape Brad was wise, but she played too hard. Laurie Lonsdale brings abuse to light in her novel Wild Side. She also successfully reminded me not to judge others by their music choice. I like Jason; he was strong and truly cared about Kelly. Wild Side is a good read! Romance with a heavy metal twist.
